- Bronze iDEA Award 2019
- BCS ECDL – Grade Distinction * 2018
- Bronze DofE Award 2018
- LiBF Financial Studies – Grade B 2018

Interests, Activities & Skills

I have a keen interest in computer science and eSports, recently competing in a Belong Arena Clash tournament. This allowed me to collaborate strategically with other members of a team made up of members who I previously had not met. I enjoy assisting others with any of their technical problems. I have previous experience working alongside members of the public in a fast-paced environment, which is a position that I enjoy and thrive within.

Hull Computer Science Society (#hullCSS) – Social Media Exec September 2022 - Present

I am the social media executive of the Computer Science Society, ensuring that members are informed of events in an accessible and engaging manner. This includes upkeeping the social media accounts and utilising the Discord server to accommodate the Society's needs.

I also hold a full clean driving license with my own transport.

Employment History

Yorkshire Racing – Retail Assistant, IT Technical Assistant May 2021 - Present

A fast-paced bookmaking business where I independently process transactions in an efficient manner. I also manage some of the business' IT resources, such as their website, and on-course hardware.

Next Clothing – Sales Assistant May 2022 - Present

In this workplace, I will process till sales and assist customers with choosing different styles, recently receiving excellent feedback from members of the public. I process deliveries within the warehouse side of the store, allowing customers to see new stock quickly and easily.

University of Hull – Computer Science Demonstrator October 2022 - Present

I am utilising previously learned teaching and communication skills to enable students in the first year to better understand the course content in the Programming Portfolio and provide feedback.
